

GEM[®] e4

Most Refined 4-Passenger LSV

The GEM e4 is an all-electric passenger vehicle on a mission to replace sedans, vans and carts in local fleets that has been proven over millions of miles in high demand shuttle applications. This category leading low-speed vehicle (LSV) is a safer, more cost-effective and more sustainable solution than the alternatives. The e4 is designed to reliably and comfortably move people around campuses, cities, industrial complexes and communities in all-seasons.

Street Legal

Engineered with low-speed vehicle (LSV) features that make GEM the leading LSV on the market.

All Electric

GEM's refined lithium-ion technology is optimized for fleets with low cost-of-ownership, all-weather capability and flexible charging.

Pleasant Experience

A smooth, quiet ride with zero emissions, forward bucket seats for all and low speeds with great views to enjoy the experience.

Pleasant Experience

GEM is designed to provide the ultimate low-speed passenger experience allowing everyone in the vehicle to feel comfortable, confident and enjoy their surroundings.

All-Season Comfort

GEM is not only a pleasant ride in warm weather, but GEM offers features to keep the operator and passengers comfortable in any season.

Street-Legal Safety

GEM is purpose-built to legally travel on roads with speed limits of 35 mph or less in local areas where safety is the top priority for those inside and outside the vehicle.

Roof Crush Certified

DOT Glass Windshields with Wiper

LED Lighting & One-Touch Turn Signals

Hill Control & One Pedal Driving

Pedestrian Noise Emitter

Reverse Alarm & Backup Camera

Street Legal on 35 mph Roads in Most States

3-Point Seat Belts

DOT Tires

Reliable Lithium-Ion Power

GEM is engineered with proprietary lithium-ion batteries that are purpose-built for low-speed applications. This results in long-lasting, low cost-of-ownership, zero maintenance and all-weather power that fleets demand. And GEM leads the category in charging flexibility and automotive-like warranties.

FLEXIBLE CHARGING
